

Exception to All Wales Midwifery- Led Care Guideline 2022

Section 13 Page 39 recommendation reads- *'When caring for women birthing outside of guidance, the AWCPNL should be used with additional long hand documentation'.*

In Swansea Bay University Health Board
The All Wales Clinical Pathway for Normal Labour (NLP) is not considered an appropriate documentation tool for women with additional complexity. Please always use long hand documentation; Intermittent auscultation initial labour assessment (in the IA guideline), traditional partogram and continuation sheets to document all care provision in these circumstances.
