Flowchart for the management of pregnancy loss under 23+6 where there are no signs of life shown

Discussion to have taken place with parents regarding options available in relation to funeral/disposal of fetal remains in relation to individual situation and if Post Mortem is required.

If Post Mortem is requested advise that fetus will go to Cardiff UHW and will return in approximately for 6 weeks. Consent for Post Mortem must be obtained and all paperwork to stay with fetus on transfer to mortuary. Fetus transferred to mortuary by Midwife and documentation completed upon transfer.

If chosen to make own funeral arrangements a post mortem will delay funeral taking place. Post Mortem results will be discussed with parents by a Consultant after results are available in12weeks. Placenta to be sent to UHW for Histology regardless if Post Mortem is being carried out.

Own Arrangements

Obtain name of chosen funeral director if know. (Inform all funerals are free of charge as per Welsh Assembly Government Standards.

Home Burial: Provide information leaflet on home burial and requirements needed. Parents to contact chosen funeral director when able to make further arrangements. No registration of Birth/Death is required.

Hospital Arrangement

By communal cremation at Morriston Crematorium after 6 weeks. (MIS 3 Form Required).

Parents cannot attend and will not know when cremation is taking place. Ashes will be scattered at Morriston Children Garden of Remembrance.

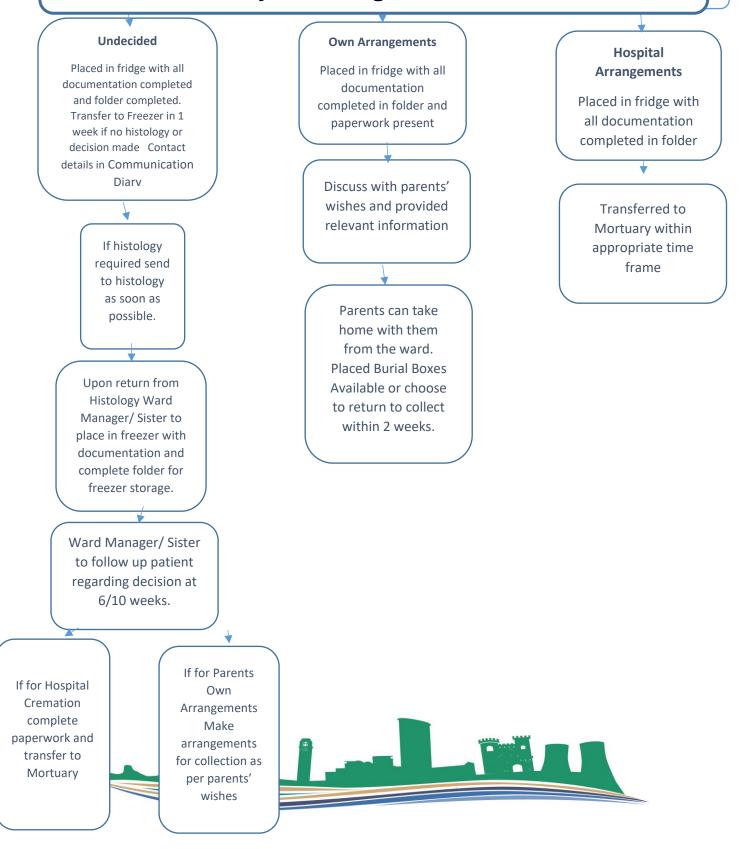

Documentation Complete upon transfer to the mortuary in the register that is available.

Flowchart for Pregnancy Loss Storage and Sensitive Disposal

Documentation Complete upon transfer to the mortuary in the register that is available.

Dear _____

Please accept my sincere condolences on the recent loss of your baby. We are very aware that this is a very distressing time for both you and your family and we do not want to cause any further distress at this difficult time.

At the time of your pregnancy loss we appreciate that you were unable to make the decision on how to proceed with how to manage the next stage of your loss. Whilst you were in the hospital we would have discussed options of making your own arrangements or for the hospital to make arrangements for Communal Cremation to take place. Communal Cremation will take place at Morriston Crematorium where the ashes will be scattered in the Babies Garden of Remembrance along with other parents who have experienced a pregnancy loss. It is with much regret that I have to make contact with yourself in regards to a very difficult decision of how to proceed.

Please be reassured that Swansea Bay University Health Board manages pregnancy loss in a sensitive manner but we must adhere to time scales in order to ensure a high standard of care is provided. You would have been advised that we would make contact with yourself at 6 and 10 weeks following your pregnancy loss to ensure an appropriate amount of time has passed for you to consider what you feel is the most appropriate option for you and your family.

We would be grateful if you would make contact at your soonest possible convenience to discuss your wishes and we will be happy to discuss any questions you may have.

Yours Sincerely

Ward Manager – 1 & 2 01792 205666 ext 35205 Monday – Friday 08.00 until 16.00
