Admission Criteria for Neath Antenatal Day Assessment Unit (ADAU)

The ADAU provides specialised care and monitoring for pregnant women with certain conditions or complications. As there is no obstetric presence women should be generally well. Any woman who feels unwell or would require a CTG for fetal assessment should be directed to Singleton Antenatal Assessment Unit. The following are the specific admission criteria for the Neath ADAU:

1. Suspected obstetric cholestasis / Intrahepatic cholestasis of pregnancy - >20 weeks gestation (no rash)
2. Follow up for women with obstetric cholestasis / Intrahepatic cholestasis of pregnancy
3. Assessment of hypertension – asymptomatic only, no proteinuria, headaches or visual disturbances
4. Follow up surveillance for women with pre-eclampsia / hypertension
5. Presentation scans
6. Fetal growth assessment scans
7. Follow-up scan review of raised PIs
8. Glucose Tolerance Test (GTT) including fasting blood glucose and HbA1c
9. Administration of steroids
10. Administration of Anti-D
11. Management of ectopic fetal heartbeat
12. Supervised demonstration of Tinzaparin 1st dose only
13. Light PV bleed without pain 14+0 – 16+6
14. Altered Fetal Movement <26/40
15. SROM assessment 37+0 onwards
